

The Bible is a:

“...cobbled-together anthology of disjointed documents, composed, revised, translated, distorted, and “improved” by hundreds of anonymous authors, editors, and copyists, unknown to us and mostly to each other, spanning nine centuries.”

From “The God Delusion” by Richard Dawkins

It should also be noted that the literature selected by “The Church” to be part of the Bible represents only a small portion of such material produced in the same geographical area at the same time in history.
