

DELT SCHOLARSHIP

Scholarship is one of the most important phases in college life. We at Delta Tau Delta firmly believe this and put forth great effort in its accomplishment.

We have a definite program set up for scholarship improvements. Strict study hours are enforced from seven o'clock to twelve o'clock each week night, with a coffee break from nine forty-five to ten o'clock. This coffee break provides the necessary relief from studying, with coffee, donuts, etc. along with the inevitable bull session.

The house maintains a file system in which many exams, daily assignments, term papers, and laboratory assignments are kept for reference. These files prove to be very valuable in giving such things as information and review for coming tests.

One of the best points of the scholarship program is the personal help. A freshman usually gains a great deal from this help, because he can gain help from an upper classman who was especially good in the subject. With this extra learning, it doesn't take long before the person is back on his feet and obtaining a good grade in the course.

Delta Tau Delta has set up a series of achievement awards that stimulate a person's desire for better grades. One of these consists of fifty dollars to the active with the highest cumulative grade point over a period of three quarters. Other awards of thirty, twenty, and ten dollars are presented to the new initiates achieving the most improvement over their pledge grades. These awards are just another helpful way that we use to produce better scholarships.

We believe that with this sound scholarship program and the ideal atmosphere we provide, every member can excel in his studies, and thus produce an all round better person.
